Total Score: 5.34/10

Question: Screening question for Machine Learning job at Recruit Comp

Your Answer: This thing can interview.

Feedback: The candidate's response is not relevant, lacks technical quality, and is incomplete. It does not provide any valid reasons or explanations for why they see themselves as a good candidate for the machine learning position. It is important to provide specific skills, experiences, or qualities that make you a good fit for the role.
